

CAREER READINESS AND
PROFESSIONAL DEVELOPMENT

STEM & Technology Majors

HERE'S HOW EAW CAN HELP
YOU PREPARE FOR YOUR FUTURE
AND CAREER!

Soft skills are paramount to your professional development. Employers ranked leadership skills and the ability to work in a team ahead of hard skills (National Association of Colleges and Employers survey, 2015) and fifty-nine percent of hiring managers believe it's difficult to find candidates with soft skills (LinkedIn study, 2015).

In the classrooms you'll learn the ins and outs of technical hard skills but those aren't the only skills you'll need to **prepare for your dream career** post-graduation. A customer service position with EAW will help you directly **develop your communication, teamwork and collaboration skills.** You'll hone these skills every day as we coach you through conflict resolution and troubleshooting with customers.

- ✓ **Soft skills**
- ✓ **Collaboration**
- ✓ **Teamwork**
- ✓ **Professional Skills**
- ✓ **Work Ethic**
- ✓ **Leadership Skills**

Additionally, you'll gain experience in other major career competences like **professionalism and work ethic** by being held to work result and attendance standards. You'll enhance your **oral and written communications** as you'll do both every day and even **gain leadership skills** as you help mentor your peers with questions as they help you in return.

Apply Now!

Gain the career skills you need to be successful post-graduation.
